## **Littlechild TJ (Trevor)**

My statement below should have said that Syd was the first playing member to pass away. Actually, Trevor was the first to depart in the mid-1990s and I have been remiss in omitting him from the pantheon. Trevor was an original 1986 VP although professing to have no cricketing ability and actually only turned out for the club a handful of times. However, he did partake in the original 'Kicking Donkey' tour to Kent. Trevor was more at home on the rugby scene but wherever he found himself he was great fun to have around.

### **Furness SC (Syd)**

At the time of writing Syd is the only member of the club to depart to the great Pavilion in the sky (2002). This is remarkable given the advanced age of many club players. However, I know that Syd would fully appreciate this mention as he had a wicked sense of humour and standing next to me at 1<sup>st</sup> slip it was only too apparent and of-course much appreciated. Even many years past his prime (he played at a much higher standard before I snared him) he was still an elegant performer in all facets of the game. He made 104 appearances, scored 800 runs, took 80 wickets and 13 catches and contributed much more besides to the wellbeing of the club. Syd was a most popular and respected member and is sadly missed by all who knew him.

### **Ladds R (Robin)**

Syd & Trevor have now been joined in the great Long Room above the clouds by Robin who has recently passed away (2016). He was an active player with the club for ten years from the turn of the century bowling economic medium pacers and going on several tours. His playing days ended prematurely when he suffered a heart attack but he continued to support the club as a Vice President, watching the occasional game and attending the Dinners. Although quiet and reflective by nature Robin was good company with a dry wit and will be greatly missed.

It should be mentioned that some of the club's guest players have contributed to the extent that their achievements could be recorded in the above statistics had I a mind to do so. However, I haven't although the club is of-course duly grateful for their help.

*Everyone should be aware of the club's unwritten rule that averages should not be calculated on pain of severe reprimand to protect the less talented amongst us!*
